PRESS RELEASE

The Lake Buchanan Conservation Corporation (LBCC) has lined up Fish Biologist, Greg Landry, from the Inks Dam National Fish Hatchery as guest speaker at their next meeting. Landry will address the subject of the life, migration, and management of the Double Breasted Cormorant (*we call them Water Turkey's*) which inhabit Lake Buchanan. These mysterious hefty birds, which occur in large numbers on the lake, have a big appetite for small fish and compete with the pelicans and gulls. The meeting is scheduled for Tuesday, December 21st at 7 PM. The location is at the LCRA Complex, located just south of the SH 29 and RR 1431 intersection in Buchanan Dam. The public is welcome to attend!
